Summary

Computer Science professional with strong interests in Networking, Cybersecurity, Artificial Intelligence, and Machine Learning. Certified in Cisco CCNA, Huawei HCIA (Routing & Switching), and Network Security, currently pursuing advanced studies in Cybersecurity. Skilled in configuring and securing networks using Cisco and Huawei technologies, with foundational knowledge of AI and Machine Learning, and a strong motivation to build a career as a Network & Cybersecurity Engineer.

Education

Shrouk Academy, Faculty Computers and information

Major: Computer Science (Expected 2027)

GPA:3.32(Excellent)

Experience

❖ ICT Hub Egypt (Cyber Security)

(Jun 2024 - Aug 2024)

- Participated in cybersecurity workshops and simulations
- Learned network protection techniques and threat detection
- Practiced real-world cyberattack scenarios
- Gained basic knowledge of incident response and cyber defense

Courses:

- Xamarin Forms: Build native Mobile Apps With C# (Mosh Hamdeani)

✓ Learned to build cross-platform mobile apps using C#, XAML, and MVVM. Covered:

- UI design with XAML
- Navigation & data binding REST API integration
- Local storage with SQLite
- Basic app deployment & testing

Certifications:

- Huawei Network Administrator(DEPI)
- Network Security(NTI)
- CCNA(NTI)
- AI & Machine Learning (Sprints)

Languages:

- Arabic (Native)
- English (Fluent)

Technical Skills

- Python
- C
- C++
- C#
- HTML&CSS
- Flutter
- Java
- JavaScript
- Problem Solving

Soft skills

- Critical Thinking & Problem Solving
- Leadership & Initiative
- Adaptability & Flexibility
- Effective Communication
- Continuous Learning
